Career Goals

Aiming to become machine intelligence leader; data scientist.

Nationality

Citizenship: US, Canada

Education

2014–2018 **High School**, *Orange County School of the Arts*, Santa Ana, CA USA, -.
Creative Writing Conservatory

2018– **Undergraduate**, *University of Toronto*, Toronto, ON CA, -.
Major: Engineering Science

Work Experience

2018 Math Instructor, All-Girls Math League funded by the Dragon Kim Foundation.

Computer skills

Advanced Python, PyStan, Pandas

Arduino C, used Nanos, Unos, 101s, Dues, several specific sensor libraries, developed PID controller.

Intermediate Stan

Java, Object oriented functionality

Latex, Bibtex, Overleaf

Beginner Git, C, Matlab, Keras, Tensorflow

Maker Skills

- Proficient in soldering and various hand tools.
- Experience with 3d printing and 3d modelling.
- Experience with basic machining (lathing and milling) - Completed George Brown Basic Machining Course.

Awards

2018-2019 University of Toronto Scholar

2018 California State Science Olympiad: 3rd Place Remote Sensing

2017 1st Place: Hovercraft; 2nd Place: Fermi Questions; 5th Place: Electric Vehicle

2015-2016 Science Olympiad Regional Awards
